Optimisation des formats de plaques

Realise your new potential: Our new formats guarantee to optimise the use of material, in-turn limiting waste and associated costs. They also help you to create more flexible solutions. With ORBILAN you can create intelligent, efficient and economically sound solutions for demanding tasks.

Un nouveau potentiel : la nouvelle diversité de formats de plaques vous donne la possibilité d'une optimisation parfaite et par la même facilite la planification. De cette manière, nous travaillons ensemble à des solutions innovatives et ce de façon plus rentable et à coût moindre.

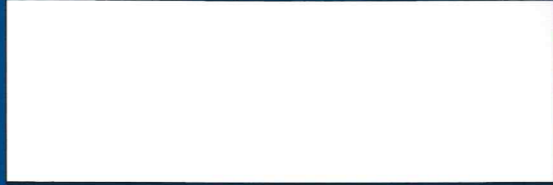

Compared to regular standard formats our Flexformats can deliver much more: Including significant reduction of "cut off" material and therefore reduced costs. Formats vary from 1250 mm to 6000 mm in length and from 850 mm to 1250 mm in width. Our standard thicknesses of 10, 12, 15 and 20mm offer you endless options.

Les plaques au format Flex ont été conçues dans le but de réduire les chutes et par la même les coûts. Les plaques au format Flex sont disponibles à partir d'une longueur de 1250 mm jusque 6000 mm et d'une largeur de 850 mm jusque 1250 mm. Les épaisseurs standard sont de 10, 12, 15 et 20 mm. Pour les plaques au format Flex, nous avons un mini de commande.
